## DETAILED ACTION

### *Response to Amendment*

The amendment received 8-27-04 overcomes the examiner's prior art rejection and **claims 1, 3-4, 6, 8-19 are allowed.**

- The examiner withdraws his objection to claims 1 and 14:

"....Claims 1 and 14 objected to because of the following informalities: the claims recite a radio or television "receiver" but then state "sending a message" - which inherently requires a transmitter. The examiner requests that the term be changed to "transceiver" since radios/televisions are not typically outfitted with transmitting hardware. Appropriate correction is required.....",

since the claims recite "a mobile telecommunications device" which is interpreted as being a mobile phone and/or other similar device containing a transceiver.

### *Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance:

1. The applicant has amended per the examiner's recommendations, hence, in his opinion, he believes the claims to be novel over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
